UNIT HISTORY

1ST BATTALION 38TH FIELD ARTILLERY

1. The 38th Artillery was organized on 17 August 1918 at Camp Dewis, Washington. The Battalion did not go overseas because World War I ended in November 1918. In February of 1919, the Battalion was deactivated.
2. Reorganization took place on 1 October, 1940 at Fort Sam Houston, Texas where it was assigned as an element of the 2d Infantry Division. After landing in Normandy it took part in the pursuit of the Germans across Northern France, fought in the Battle of the Bulge and pushed across Southern Germany into Czechoslovakia. The Battalion colors carry five battle streamers for these actions. The unit was also decorated the Belgian Fourragere with citations for action in the Ardennes and Elsenborn Crest.
3. After the war it remained on active duty with the 2d Infantry Division at Fort Lewis, Washington. In August, 1950 it landed with the 2d Infantry Division at Pusan and took part in the defense of the NAKTONG River as one of the major artillery units.
4. The Battalion took part in the halting of the Chinese Army at HONGCHUN, and the final defeat of the Chinese Forces at WONJU in the spring of 1951. For these actions it was awarded the Presidential Unit Citation. It also took part in operations which drove the Chinese Forces from Southern Korea, and in the final stabilization of the front at the Punch Bowl, Bloody Ridge and Heartbreak Ridge.
5. Besides the Presidential Unit Citation, the Battalion was twice awarded the Republic of Korea Presidential Unit Citation and earned ten battle streamers for actions in Korean War.
6. Presently, the Battalion is garrisoned at Camp Stanley, Korea and has the critical mission of direct support of the forces in the Demilitarized Zone. It has recently participated in field operations north of the Imjin River and selected batteries have provided direct support for units in the Demilitarized Zone.
7. The Battalion has a fine record of achievements and victories during two wars. Its present record of superior performance mirrors the past achievements and reflects the continuing tradition of the "Steel Behind the Rock".
